ASI SENATE MEETING
November 14th, 2013

Johndaniel Morales
Attorney General

1. SUBJECT: Council Meetings

Details: I have successfully visited every council meeting at least once. Most of my visits were brief as initial visits were to put a face to my name and introduce myself as a resource to councils and student organizations under them. I will begin reviewing bylaws and highlighting recommendations for change for adherence with ASI bylaws and to clear up any confusing language.

A point I will be conveying to councils more immediately is an outline of what having to adhere to Gloria Romero Open Meeting law means. This will include posting up Agendas physically 72 hours in advance to their meeting, not being allowed to vote by secret ballot, and not forcing candidates in elections to step out of the room during discussion and voting.

Nov. 14, 2013

1. What ASI Outreach efforts were made?

I. Quarter to Semester Conversion

The Engineering Council E-Board was informed about the quarter to semester conversion. The students were concerned that the conversion may cause a loss of lab classes. Cal Poly Pomona is known for having a hands-on approach to learning and the students feel that the loss of lab time would detriment the overall learning of the engineering community.

2. Upcoming Engineering Council Events

I. Engineering Week

E-council is currently planning Engineering Week, a week-long celebration of the college of engineering. Some of the events for the week will be a club fair, a free food day, and a social for the engineering students. We will also be promoting the new engineering "Hall of Fame" that will be located in Building 9.
