II. DISCUSSION ITEM

A. BSC Budget

Powell went page by page discussing the BSC Budget, and explained to the committee how this budget is passed through the committee and is passed on as a recommendation to the Senate.

B. F&O Sub-Committees- First Report(s)

Jaime reported on his research for projects that the BSC could implement to become more sustainable. The first was Hand Dryers, such as the air blade ones placed in the Market Place currently. His second proposal was a composting program that could be implemented. Brett chimed in with the fact that Foundation has currently implemented this program, and wouldn't mind passing on information as this program continues to progress. The third idea that Jaime proposed was sensors for the meeting rooms / bathrooms. His fourth idea was a campus repair center, which they have currently implemented in the market place. After discussing these items with the committee, Alicia (the Chair) requested Jaime to do research on prices and implementation for these projects. The committee had agreed to start research on the hand dryers would be a good project for this year.

Evin did not have to present.

Ismael did not have anything to report.

III. INFORMATION ITEM

- A. Taste Testing

Brett went over the results of the Foundation Master Plan. He mentioned how the number one on campus was In-N-Out, and how it was not possible to have them on campus as they were not interested, and it would be a conflict with our contract with Carl's Jr. The second highest was the "fresh mex" concept, Chipotle. Since Chipotle had no interest in being on College campuses, Foundation was looking at the next best restaurants that were interested. The restaurants were Qdoba, Baja Fresh, and Wahoo's Fish Tacos. They asked Rubio's, La Salsa, FreeBirds, and other fresh mexican food options.

Brett invited the committee to a Taste Testing of Qdoba and Baja Fresh to help with the decision of what to replace Subway Express with.
