Our responsibilities include gathering ideas for employers to invite and providing incentives for students to attend.

After meeting with him, I have received some insightful background information about the safety issues with classes at the Animal Units. So far, I have received full support of this project by each person I have met with.
- b. I have met with Daniel Johnson, Director of Facilities Design & Construction, who has said he will take the information I gave him and present it to his team. If they decide not to take action, I will begin working on more ways to bring attention to the issue.
