5. Upon approval and training, the cash handling station can begin accepting cash and cash equivalents.

To dismantle a cash handling station:

Segregation of Cash Handling Duties

Segregation of duties must be maintained when cash is received and no single person should have complete control. If departments or student clubs and organizations are unable to comply with the following requirements due to lack of resources, mitigating controls must be implemented to prevent and detect loss from fraud or negligence.

1. Cash handling activities require daily supervision and review.
2. The storage and inventory of blank receipt stock must be handled by someone other than the cash handler.
3. Deposit counts must be verified by a second person.
4. Returns, refunds and write-offs, as well as inventory of returned items, must be approved by someone other than the cash handler.
5. Payments received through mail must be verified, processed by someone other than the cash handler, and restrictively endorsed for deposit or electronically deposited by the close of business on the date of receipt.
6. The person receiving cash, issuing cash receipts, and preparing the deposit should not be the same person who performs reconciliation, enters journal entries, and reviews financial statements and activities.

Check Requirements

To be accepted for deposit, each check presented must be payable to Associated Students Incorporated (or ASI), the Bronco Students Center (or BSC), or the name of the registered student club or organization. In addition, checks are required to:

1. Be recently dated - no stale date checks shall be accepted (i.e. personal checks that are over 180 days old).
2. Be properly signed by the owner of the account.

3. Be in agreement as to numeric and written amounts. When the numeric and written amounts on a check do not agree, a new check should be requested.
4. Be legibly written in ink or typed.
5. Have Federal Reserve routing codes printed as part of the MICR encoding at the bottom of the check.

Departments or student clubs and organizations must maintain a listing of checks that are not payable to Associated Students Incorporated (or ASI), the BSC (or Bronco Student Center), or the name of the registered student club or organization. These checks must be forwarded to the appropriate entity (if identifiable), or returned to the payee no later than 30 days from receipt.

The following checks should not be accepted:

1. Checks bearing the legend "Payable/Paid in Full."
2. Checks drawn on foreign bank accounts that are not acceptable at face value by the depository bank (e.g. if drawn in a foreign currency).

Cash equivalents include checks, money orders, debit cards and credit cards. Checks and money orders can be accepted at cash handling stations and by student clubs and organizations; debit cards and credit cards can only be accepted at authorized cash handling stations.

1. All cash registers, point of sales equipment, and online sale websites must produce sequentially numbered sales receipts whether automatically or manually, and receipts must be secured from alteration except when approved by the department manager/designee(s).
2. In circumstances where it is not practical (e.g. club bake sales, ticket sales) to process a receipt, other mitigating controls must be implemented, such as a cash receipt log, pre-numbering of tickets, ticket inventory reconciliation, and ticket count reconciliations against cash collected.
3. Individual accountability must be maintained and documented. Each cash handler must be assigned a unique user ID, password, and cash fund not accessible by or shared with other individuals. The department manager must provide a cash register drawer or other secure cash receptacle to which only the cash handler has access.
4. Each cash handler should take reasonable precaution to detect counterfeit money prior to acceptance.

5. An endorsement stamp or its mechanical equivalent shall be used to restrictively endorse deposits of cash equivalents as soon as possible but no later than the close of business on the date of receipt.
6. The cash handler must lock all cash and cash equivalent in a drawer or other secure receptacle whenever leaving the immediate area.
7. The cash handler shall accumulate receipts from sales or deposits as part of the normal business operation. At the end of day or end of shift, all cash receipts should be reconciled and reviewed by someone other than the cash handler responsible for the collection.
8. Documentation of cash differences (both overages and shortages) must be maintained for each cash handler for subsequent review by a supervisor.

Endorsement Stamps

An endorsement stamp or its mechanical equivalent shall be used to restrictively endorse deposits of cash equivalents as soon as possible but no later than the close of business on the date of receipt.

Security of Cash & Cash Equivalents

Departments with cash handling stations must implement physical security systems (i.e. alarms, panic buttons, motion detectors, security cameras, etc.) to ensure the safety of funds and personnel in areas where large amounts of cash are collected regularly.

The following are the requirements for storage and security of cash and cash equivalents.

Amount of Cash and Cash Equivalents (regularly on hand)	Storage Requirement	Security System Requirement
Up to \$1,000	Locked drawer or safe	Any physical security system
\$1,001 to \$2,500	Burglarproof / fire resistant safe	Any physical security system
From \$2,501 to \$25,000	Burglarproof / fire resistant safe	Manual robbery alarm system to alert campus police
From \$25,000 and up	Burglarproof / fire resistant safe	Automated alarm system to alert campus police

Documentation must be maintained showing the date and the reason for the combination changes.

Transporting deposits between cash handling stations or to the bank should be accomplished in a secure manner in order to protect the financial assets and individuals involved in transportation.
