3. SUBJECT: Facilities Updates

DETAIL:

On Wednesday, August 2, 2017, the University Facilities Energy Department and the BSC and ASI Maintenance teams met with Nick Ubrun PE, from Goss Engineering to discuss the BSC Air Handler Replacement Project. Goss Engineering is a planning, design, management and commissioning firm for HVAC systems. Goss Engineering mentioned that they have directly hired post Cal Poly graduate students and are seeking to fill the position of Mechanical Engineer for their organization. Our department suggested that Alvah Bickham, Building Repair Assistant, pursue the open position, since he currently has HVAC experience and is majoring in the Mechanical Engineering field.

Alvah was recently interviewed by Goss Engineering and was informed that they would like to offer him the position as a student while he completes the 2017 Fall semester. Per their contract, he would be hired full-time upon graduation.

Alvah thanked the Maintenance department for the unique opportunity to work in an environment that allows him to gain experience in fields that pertain to his career paths. Our goal is to help our valued students grow and succeed in their future careers.

4. SUBJECT: Children's Center

DETAIL:

We are currently fully enrolled for the quarter, with 64 percent of our children coming from student parents, and 21 percent from staff and faculty. Our Family Orientation will be held next week, September 27th at 5:30 p.m., anyone is welcome to attend and learn more about our program policies and procedures.

Fall Quarter begins our first quarter to host Practicum students from the Early Childhood Studies (ECS) program. We began our partnership in Fall of 2016, hosting ECS Observation students, and are excited to build this partnership as the ECS Practicum students work hands on in the classroom with young children. This real life experience will contribute to our ECS students' academic success as they add real knowledge to the theory they are learning in the classroom.
