2024 ELECTIONS

ASI Student Government: Voter Information Guide for the 2024 Elections

Compiled and Distributed by the
2024 Elections Committee

Handwritten signature

DEAR VOTERS,

I would like to thank you for taking the time to learn about our voting process and about the candidates running in this election cycle.

Please do not take your vote lightly. The candidates you vote for this election cycle are going to be your voice and representatives for the next year. The following booklet provides you with information about the candidates and their platforms. It also provides voting information and important dates with locations.

Your vote counts!

If there are any questions and/or concerns, please direct them to the ASI Elections committee at asielections@cpp.edu

Best wishes,

AMY TJELTVEIT

Amy Tjeltveit
ASI Elections Assistant

PRESIDENT AND VICE PRESIDENT TICKETS

Cade Wheeler & Megan Shadrick 5-6
Prakash Kalapala & Atri Desai 7-8

PRESIDENT

CADE WHEELER

Hello all! I am Cade Wheeler, a soon-to-be fifth-year mechanical engineering student and I am running for ASI President with Megan Shadrick as my Vice President. My time as this year's ASI Engineering Senator provided me valuable insight into the intricacies of advocacy and the power available to student leaders on campus. With the growing student dissent for CSU bureaucracies, we recognize the importance of having a team that can fight back against the injustices perpetuated by those in power, and we promise to be that team. Our campaign will be founded upon three pillars: Accountability & Financial Support, DEI, and Awareness. In terms of accountability, our goal is to facilitate consistent, transparent checks within ASI systems to catch incompetence early on. Our plans aim to expand access to and improve the financial

infrastructure for organizations throughout campus. Furthermore, we will pursue Diversity, Equity, and Inclusion every day by establishing a cabinet of diverse Bronco leaders specializing in particular facets of our action plan and ensuring the student body's divergent interests are holistically represented. Finally, we will address and rectify blatant disparities in the current organizational curriculum by providing direct input about the capacity in which we can serve students. Our daily mindset in this role will be to critically analyze every choice and action in the context of whether it will contribute to the well-being of the greater student population and experience. The position of President is a responsibility, and I will hold this sentiment continuously during our term.

VICE PRESIDENT

MEGAN SHADRICK

Hey Broncos! I'm Megan Shadrick, running to be your ASI Vice President alongside Cade Wheeler as President! I am going into my fifth year as a Business Management & HR major, previously involved in ASI as your Student Interest Council Senator. We believe in elevating the student voice at every level of the CSU. Every student deserves to have confidence in their leadership to build a better campus community. Cade and I will continue to build upon the foundation we have set during our time as senators to offer you a more inclusive, engaging, and memorable college experience! Our campaign and future term is designed to address three main tiers. 1) Accountability & Financial Support - we recognize the distrust in campus leadership and will fight against the status quo that has

been put in place by our administration. This specifically includes working with Financial Services to make club/org budgets more accessible! 2) DEI - empowering the voices of students, clubs, and organizations who are historically underrepresented. We are committed to building an ASI team that reflects the demographics of CPP. 3) Awareness & Education - regularly educating and informing you about the power you hold as students and including you in the decisions we make as ASI leaders. Cade and I will lead with passion, urgency, integrity, and most importantly empathy. Our mission is to exemplify leaders who hold others accountable and actively listen to you! Join us in constructing a better future for you and the Broncos that follow!

PRESIDENT

PRAKASH KALAPALA

Hey fellow Broncos, I'm Prakash Kalapala, a first-year grad student diving deep into Engineering Management here at Cal Poly Pomona. I'm stepping up for the role of your next ASI CPP Student President because, like you, I believe in making the most of our college journey—balancing the grind with genuine moments of fun, learning, and community building. From launching a startup that made campus life easier for students to leading operations in the energy sector, my experiences have taught me the power of innovation, teamwork, and resilience. But more than that, they've shown me how impactful our actions can be when we're all in this together. I want to bring that spirit

to our campus. Imagine a place where your voice doesn't just echo in the halls but leads to real change. A campus where every club feels like a family, every initiative sparks innovation, and every student has the resources to thrive—academically, socially, and personally. Let's make CPP not just a stepping stone but a launchpad for our dreams. Whether it's sustainability, tech, arts, or wellness, I'm here to ensure your passions find a home and your ideas take flight. Together, we can craft a campus experience that's not only memorable but truly transformative. Your vote is your voice. Let's make it count for a campus that's more connected, more dynamic, and more ours. Let's do this, Broncos!

VICE PRESIDENT

ATRI DESAI

Hey Broncos, I'm Atri Desai, pursuing a Master's in Accounting at Cal Poly Pomona. As your next ASI CPP Vice-President, with Prakash Kalapala for President, I'm committed to enhancing our college experience, ensuring every decision and dollar contributes positively to our community. Leveraging my background in finance, including my time at KPMG where I led projects that significantly improved financial processes, I plan to bring transparency and innovation to our student government's financial management. I believe in the power of numbers to create real, positive changes, from streamlining budget allocations to funding meaningful campus initiatives. Together, Prakash and I aim to create a campus environment where

resources for academic and personal growth are abundant and accessible. By optimizing our budget and promoting a culture of inclusivity and accountability, we can support every Bronco's journey to success. My vision is for ASI CPP to be a proactive steward of our resources, championing projects that enrich campus life and align with our diverse aspirations. From enhancing financial wellness among students to ensuring transparent and efficient use of our funds, I'm here to make sure your voice is heard and acted upon. Vote for us, let's make Cal Poly Pomona a place of opportunity, growth, and community for all. Together, we can build a brighter future for every Bronco.

COLLEGE OF AGRICULTURE

JAZMYN MENDOZA-RIOS

My name is Jazmyn Mendoza-Rios, and I am running for re-election as Agriculture Senator. I am a second-year transfer student majoring in Agriculture Science with a minor in Agribusiness and Food Industry Management. I am seeking this position again because I entered it with plans to heighten student engagement, advocate for the needs of others, keep my peers informed, have a lasting impact, and highlight resources and opportunities available within the college. However, I have developed many new goals this year as Agriculture Senator, and I want to continue implementing changes for the benefit of all Huntley COA students. If re-elected, I hope to continue pursuing my original goals while also focusing on facilitating a sense of community, collaboration, consideration, and transparency

within the Huntley COA and the Agriculture Council. So far, some of the accomplishments during my term as Agriculture Senator include creating a weekly newsletter to keep students informed and highlight available resources and opportunities, partnering with the Alumni Association to establish the Bronco Mentoring Network for the Huntley COA to highlight alumni networking as a resource, creating an AG Rep and Club newsletter to keep the body informed on council matters, collaborating with the Agriculture Council for events and meetings they hosted, and representing the Huntley COA students at multiple events and meetings to advocate for their needs based on feedback from students within the college. If re-elected I hope to be the change we need to see within our college!

MEHEK JAIN

Hello! My name is Mehek Jain. As a dedicated and driven student in the Accounting program, currently in my fourth year at Cal Poly Pomona, I am thrilled to announce my candidacy for Business Senator. My journey in the field of business has been shaped by my current internship at the Shawn Washington Accountancy Corporation and being the Director of Activities of the Cal Poly Pomona Society of Accountants Club for the term 2023 to 2024. Through internships, coursework, and extracurricular activities, I have developed a strong understanding of business principles and practices, as well as the ability to think critically and solve complex problems. If elected as Business Senator, my goal is to be a voice for the business community on

campus and to advocate for initiatives that promote growth and opportunity for all students that I have learned from being the MultiCultural Council Senator of the year 2023 to 2024 term. I am committed to promoting collaboration between students, faculty, and administration to create a thriving business environment that prepares students for success in their future careers. I am excited about the opportunity to serve as Business Senator and am dedicated to representing the interests and concerns of my fellow business students with integrity and diligence. Together, let's build a stronger and more vibrant business community at our university.

COLLEGE OF LETTERS, ARTS, AND SOCIAL SCIENCES

IGNACIO LINARES

My name is Ignacio Linares, and I am running for the position of Senator for the College of Letters, Arts, and Social Sciences. I am majoring in history and am currently in my junior year. I transferred from Pasadena City College in the fall of 2023, but I first came to this campus when I was in elementary school. Since first setting foot on this campus as a kid, I knew that this was the college I wanted to go to one day. It was my dream. Twenty years later, my dream came true. When attending my first semester here on CPP, I felt that sense of wonder and love I felt as a kid, and at times it felt downright surreal that I was here. Today, I am looking to give back to the wonderful community here at Cal Poly

because to me, being of service is my way of giving back what has been generously given to me. I feel I would be a great candidate for this position because I care for the community, and I seek to do whatever I can to improve the lives of the students, however small a contribution I can make. I seek to learn what issues the students are facing, and taking steps to address the issues. I seek to do this through my experience in bringing people together and fostering an atmosphere of cooperativeness and team work, through sitting down and listening to students and their concerns or ideas.

COLLEGE OF LETTERS, ARTS, AND SOCIAL SCIENCES

NATHAN HALL

My name is Nathan Hall. Being a second-year communication major with a focus on public relations, I couldn't be more pleased to announce my candidacy for the position of Senator of the College of Letters, Arts, and Social Sciences. Throughout my academic journey, I have come to appreciate the importance of a diverse body of students, staff, and perspectives within our college. A representative must be elected that prioritizes this diversity and can advocate for those who do not have a voice. I am committed to representing the voices and concerns of the students and staff with integrity, dedication, and a clear head. I will work tirelessly to advocate for policies and initiatives that promote academic excellence, student success, and overall well-being within our community.

I have nearly a decade of experience in public speaking and have developed strong interpersonal skills, critical thinking abilities, and an open mind that will allow me to effectively address the needs of our community. Coming from a Jewish background, I understand the importance of having those who will advocate for you when your voice has fallen on deaf ears, and am committed to being that advocate whenever possible. Together, let us strive to build a stronger, more unified academic institution. With your support, I am confident that we can work towards a brighter future for all students. Thank you for considering me as your next Senator for the College of Letters, Arts, and Social Sciences. Let's make our voices heard! Sincerely, Nathan Hall

COLLEGE OF LETTERS, ARTS, AND SOCIAL SCIENCES

NUOYAN LI

My name is Nuoyan Li and a third year English major looking forward to get a minor in writing studies. I'm running for the College of Letters, Arts, and Social Sciences Senator position for the 2024-2025 school year. My qualifications for this role would be having lots of experiences regarding leadership roles and community services. I was a former Orientation Leader and a current Orientation Captain to serve both incoming students and transfer students. I'm a Club and Organization Development Leader where I gave weekly lectures on the features of myBAR and assisted students in starting their clubs. I'm one of the mentors for the Mentorship Collective Program on campus for 3 years. I'm also the former Internal and External Affairs Director for CLASS Council and the current Vice President

for CLASS Council. As the current Vice President of the CLASS Council, where I oversee 16 clubs within the CLASS. We organize monthly meetings on how we can help the CLASS community more effectively and collaborate with the Deans of our college along with the Student Success Center. I'm also one of the delegates in the National Model United Nations Team. To further support people of different needs, I also joined the INSAN program to support the homeless. Lastly, I'm an experienced panelist in answering questions related to orientation, clubs, CLASS Council, and scholarships. My goal for this position would be creating a safe and friendly environment for our community and providing more opportunities/resources for our students.

GIOVANNI DAMIEN ZAMORA

Hi, I am Giovanni Zamora and I am a 2nd year computer engineering student. I am seeking the position of an Engineering Senator to not only represent, but support my fellow student body wholeheartedly. As a second year Latino student, I recognize where the school system has misrepresented and under-marketed their student's potential opportunities. I wish to simplify the overwhelming amount of activity in school life and nurture knowledgeable students so as to equalize performance with passion. I have and am currently leading projects that consider any and all ready minded individuals in both hardware and software. Whether it be in academics or extracurriculars, I

am honestly heartbroken at how many students suffer from high anxiety and low self-worth, while trying to juggle the hardships of life. If I could make the slightest difference in ASI, it would most assuredly be for the betterment of the Engineering community in its conversations, connections and commitments. For the purpose of fostering health and wealth, I see no better alternative, then to slow down and take full accountability. In any circumstance I hope for us all to learn from ASI's top leaders and educators. I most definitely intend to see the goals of my peers and I to the very end, no matter how challenging or mundane. Thank you for reading.

COLLEGE OF ENGINEERING

JOSEPH LEE

Hello everyone, my name is Joseph and I am a second year electrical engineering student. I am seeking the position of Engineering Senator to contribute my skills and passion for innovation to enhance the academic experience for my fellow engineering students. As a 2nd-year student, I bring fresh perspectives and a proactive approach to addressing the needs of our engineering community. My goal is to foster collaboration between students and faculty, ensuring that the academic environment is an optimal learning environment where all engineering students feel represented and valued. I believe that one way to do this is to give more financial support to the clubs and programs on campus designated to provide hands-on experience, career

development, exposure to different fields of engineering, and academic success. Another thing I would like to change is the low amount of available sections for mandatory engineering classes. The engineering majors are impacted and so, it is difficult for many to graduate within four years because of the difficulty of enrolling in mandatory classes. If elected as Engineering Senator, I will aim to bridge the gap between students and faculty, championing initiatives that enhance the overall educational experience. I am excited about the opportunity to serve my fellow students and contribute to the continued success of the engineering program at CPP.

COLLEGE OF ENGINEERING

MATTHEW SANCHEZ

Hello, my name is Matthew Sanchez. I am currently a third year mechanical engineer and vice president of the American Society of Mechanical Engineers (ASME) who is running for Engineering Senator for the 2024-2025 school year. This upcoming school year will be my last as a CPP student, and I want to spend this year giving back to the CPP engineering community which has done so much for me and my peers. I want to focus on the core of the engineering community, and to me, the core comprises of all the clubs and projects that CPP offers its students. These student-run organizations make it easier for us and our peers to get the necessary hands on experience, career preparation, and social interaction outside the classroom

that makes for a fulfilling college experience in terms of both having fun and getting ready for a career after college. In order to further support these organizations, I will ensure proper funding continues for those who receive it and fight to ensure those who seek more funding for their endeavors have a voice. Additionally, I will promote these organizations and create a system so every single engineering student can easily get access to see the clubs that are available to them and what they do. To all the friends I have made and those who don't know me, I humbly ask for your vote to ensure we can succeed together and everyone can benefit from our core.

COLLEGE OF ENGINEERING

ROBERTO PEREZ

Hello everyone! My name is Roberto Perez and I am running for the position of Senator to the College of Engineering. As a third-year transfer student majoring in Chemical Engineering, I've recently had the pleasure of acquainting myself with many of the exceptional professors and faculty that contribute to CPP's engineering program. As an involved member of both Chem-E-car and Maximizing Engineering Potential, I have also become familiar with many of the concerns shared by the general engineering student body. I'm extremely passionate about utilizing principles of engineering and chemistry in order to create efficient and viable energy sources with the long-term goal of replacing fossil fuels in developed nations. If elected to office, my mission is to strengthen the dialogue between faculty and student, in order to create a collaborative environment that promotes student excellence and provides the necessary guidance to uphold student merit.

COLLEGE OF EDUCATION AND INTEGRATIVE STUDIES

TONY TRUONG

Hello! My name is Tony Truong and I am running for the position of College of Education and Integrative Studies Senator for the upcoming academic term. My extensive experience at Cal Poly Pomona, both as an undergraduate and post-baccalaureate student, has equipped me with valuable insights into our education experience, campus involvement, and advocacy for students and faculty. Having served for the past two academic terms as Director of Events and Meetings and later as President on the C.L.A.S.S. Council, representing the College of Letters, Arts, and Social Sciences, I have consistently championed accountability through visibility for our clubs and for the college. Additionally, during my presidency in the C.L.A.S.S. Council, our council had a collaborative partnership with the CEIS Council through their work on the CEIS 3rd Space Initiative, which aims to cater to a diverse learning audience,

which include CEIS students, K-12 teachers, professors, alumni, and prospective educators within the Cal Poly Pomona community. It will be my goal to continue this work in the next year and to get other colleges involved in the initiative. As ASI Senator for CEIS, my goal will be to provide students with resources that enhance their on and off-campus experiences, emphasizing the importance of student engagement. In the upcoming academic year, I am committed to aligning with the broader goals of the ASI Board of Directors, focusing on rebuilding student engagement, disseminating ASI and campus resources, advocating for basic needs, and charting a path toward a more inclusive and supportive educational environment. Your support is deeply appreciated, and together, we can make a positive impact for the students of CEIS and Cal Poly Pomona alike.

COLLEGE OF ENVIRONMENTAL DESIGN

DAKOTA ROSE ERWIN

To be a student at The College of Environmental Design has been a goal of mine and to become a student representative of this college would be a privilege. Previously I worked at Crafton Hills College as a Tutor, a president for Art Collective, and Events Coordinator for student senate. I was President of the Architecture Club at San Bernardino Valley College, I was active student representative for American Institute of Architects and assisted in connecting Construction Managers Association of America with our Architecture Club. I am passionate about people and their built environment. I am currently in the 2nd year Landscape Architecture program and plan to apply for the Master of Architecture. My biggest goal is to be a great student, I also want to help other students do great things. I have my own aspirations and ideas to help our school, I also want to be a student representative and a voice, someone who helps my college and the people that work hard here every day.

MARSHA PRANATA

Hello, my name is Marsha and I am a third year architecture major. I'm also the current ENV senator and I am running for re-election this upcoming academic year! My time with ASI has been educational, exciting, and productive. In the last year, we have expanded awareness of the mental health services provided by CAPS, and pushed forth sustainability efforts in the college. I'm in the running for another term, aiming to see these projects through. There's so much more work to be done, and would love an opportunity to be your voice through these changes. Your support would be appreciated as we strive for positive changes in the college of ENV and campus at large. I promise to continue to represent the voice of ENV students at large. Thanks for your time.

ALI KHAJA

Hi, my name is Ali and I am a third-year double major in Biotechnology and Computer science. I plan on rerunning for senator for the College of Science. I am your current senator for the college and I hope to be able to continue the work I have been doing with science council and clubs. With my experience in two of the largest departments within the College of Science and the insight I have from these experiences, I have been able to connect with members of the administration and hope to further work with them to solve problems. One thing I want to work on specifically for next year is increasing involment within the college of science and help boost the connections us students have with clubs, professors, alumni and also other students. I hope to represent students in the College of Science and be a voice for our collective interests and continue working on improving our experience at CPP.

SENATORS-AT-LARGE

GREEK COUNCIL

Anissa Patel	24
--------------------	----

INTER-HALL COUNCIL

Eric Lynn Vercher	25
Ian Perez	26
Moises S. Gonzales	27

MULTI-CULTURAL COUNCIL

Sherwin Weerakoon	28
-------------------------	----

GREEK COUNCIL

ANISSA PATEL

I would like to be re-elected as Greek Senator to emphasize community, be the student voice in these difficult times (strike, COVID-19, etc.), and create sorority housing. Less than 5% of our student body is involved in Greek life. This is a small percentage compared to other schools that are around our size and demographic. There must be an accurate representation of our members displayed to the public. I'm sure many of you can agree that Greek life is smeared in the media. It is my mission to form new public opinion on Greek Life as I did last year to positively represent the community. For example, I had meetings with our CSU Student Trustee, the University Presidential cabinet, and the Student Engagement and Leadership and Success team to further student-faculty relations. Lastly, I'm pushing to create sorority housing on our campus to further sisterhood. To do that, you need someone who is motivated to construct a community that leaves a long-lasting legacy. If I am re-elected as Greek Senator I will cultivate an environment where I can do just that.

INTER-HALL COUNCIL

ERIC LYNN VERCHER

Hello! My name is Eric Lynn Vercher and I am a 5th year Physics major with an emphasis in Biophysics, and the current ASI Senator-At-Large for IHC. I am running for this position because I have so much unfinished business within my role. I just was able to get pace but due to external circumstances wasn't able to complete all my goals for the year. I am back again in hopes of finishing what I had started in IHC, along with leaving a lasting legacy for any concurrent Senator after me.

INTER-HALL COUNCIL

IAN PEREZ

My name is Ian Perez, and I am currently in 2nd year studying landscape architecture. My major relies heavily on collaborative feedback, which cultivates various perspectives that improve our work. My passion is encouraging student participation to improve Cal Poly's learn-by-doing methodology by bridging the commuter and resident student gaps and establishing a sense of community. Intending to unite students from various backgrounds through inclusive events, I hope to strengthen our community as an ASI Senator At Large. I think that the success and well-being of students depend greatly on having a strong sense of community. I see a campus where all students are supported and feel welcome because of the

well-planned events that highlight our diversity and foster deep connections. Having gone through the move from San Diego, I know how important it is to find a community that is supportive when you are away from home. I want to ensure that all Cal Poly students, regardless of their circumstances or background, feel appreciated and included. We can establish an academic, social, and personal environment on campus where everyone can succeed by promoting an inclusive and accepting culture. I'm devoted to speaking for the student body and supporting programs that improve our overall Cal Poly experience. As an ASI Senator At Large, I'm excited to have a positive influence while emphasizing community building, inclusivity, and collaboration.

INTER-HALL COUNCIL

MOISES S. GONZALEZ

My name is Moises S. Gonzalez, an applied mathematics major who is a third-year transfer. The transition over was a big change for me. At community college, the community was greatly involved with events and extracurricular activities. They would go as far as to volunteer with the cleaning and preparing of said events, on the other hand, living in the suites, the community is scarce. Most residents seem unengaged with the community and honestly, I was too at first. I used to stay in my room alone because I felt uncomfortable going to an event that, not only, I was not interested in but also knew I would feel alone there anyway. This is why I'm running for the Senator at large, Inter-Hall council, because I want to be the change to reignite and

maintain the residential community. I been working as a Student Justice Leader at the Native American Student Center since last semester where I learn how to create, plan, host and advertise events. While doing these I've seen a community Flourish. Going from a relatively empty place, to having many people I consider my friends come in for there breaks or just to say hi. I noticed how the events helped the community strengthen, from making connections, to reinforcing relationships. Similar to the Native American Student Center, I would love to help the housing community become a lively community were all feel welcomed, comfortable enough to meet new people, and engaged with fun activities.

MULTI-CULTURAL COUNCIL

SHERWIN WEERAKOON

Hello, Broncos! I'm Sherwin Weerakoon, a 4th-year Aerospace Engineering student at Cal Poly Pomona, and I'm excited to run for the position of Multicultural Council Senator at large. My journey begins with a meaningful quote from my grandfather, an immigrant from Sri Lanka: "Be the change you wish to see." Those words have been my motivation, inspiring me to push through challenges and strive for a positive impact. Throughout my time at CPP, I've held multiple leadership roles, including President of the Singha Club-Sri Lankan Student Association, Vice President of the Multi-Cultural Council, and Event Coordinator of AIAA. In these positions, I've worked tirelessly to promote inclusivity, respect, and understanding by learning about different cultures, backgrounds, and traditions. As a first-generation student, I'm deeply committed to making a

difference both on campus and beyond. In 2022, I founded Project RISE LANKA, a nonprofit aimed at providing relief and aid to farmers in Sri Lanka. This endeavor reflects my belief in the power of community and the importance of giving back. Looking ahead, I plan to build a vibrant community as ASI Multi-Cultural Council Senator where every individual, regardless of their background, feels valued and supported. If elected, I will be the voice of the cultural clubs and every student at CPP, advocating for inclusivity and understanding. My candidacy isn't just about personal ambition it's about uplifting and empowering my fellow Broncos. Together, let's be the change that creates a brighter, more inclusive future for all. Thank you for your support!

ONLINE VOTING DATES & INSTRUCTIONS

ONLINE VOTING DATES

BEGINS:

- March 25, 2024 at 7a.m.

ENDS:

- March 28, 2024 at 7a.m.

ONLINE VOTING INSTRUCTIONS

- Every student will receive a link through their CPP email at the beginning of the online voting. Each student will be able to vote for:
 - President and Vice President ticket
 - Four (4) Senator-At-Large candidates, one from each of the four At-Large councils
 - Senator candidates pertaining to the student's college
 - Substantive changes to the ASI By-Laws

COLLEGE OF LETTERS, ARTS, AND SOCIAL SCIENCES

TYLER MURRAY

Good evening, My name is Tyler Murray, I am currently in my second year pursuing a degree in philosophy. I am going to be running for the position of College of Letters, Arts, and Social Science Senator. Upon entering college, student involvement ran organizations or clubs was not something I ever considered. I held a personal vendetta against campus organizations due to the stigmatism I was exposed to in other areas. However, I was fortunate to find a group that aligned with my values. Joining in the Fall of 2022, I immediately took on roles such as IFC Greek Council Rep, Greek Council IFC Rep, and Event Coordinator, expanding my involvement to include Recruitment Delegate, which helped me gain my current position as Vice President of my social organization. Last semester, I became the youngest IFC President in Cal Poly Pomona's history. Collaborating with Greek Council, Panhellenic, and Student Government,

I'm committed to challenging the negative perceptions surrounding Greek life on campus. My journey has led me to embrace fraternity life and aspire to enhance its impact on campus, benefiting students, departments, and clubs alike. I aim to leave a lasting impression at Cal Poly Pomona, building upon the efforts of past Eboards. Upon entering college, student involvement ran organizations or clubs was not something I ever considered. I held a personal vendetta against campus organizations due to the stigmatism I was exposed to in other areas. However, I was fortunate to find a group that aligned with my values. Joining in the Fall of 2022, I immediately took on roles such as IFC Greek Council Rep, Greek Council IFC Rep, and Event Coordinator, expanding my involvement to include Recruitment Delegate, which helped me gain my current position as Vice President of my social organization.
