ASI Audit Approval

The board gave the ASI government a clean opinion on their financial statements. They did not identify any issues or deficiencies with their report. No huge questions or problems from the audit committee.

PRESIDENT: As a student who has no accounting knowledge how would someone look over the audit and understand everything?

ANSWER: The team has been hired to present the results so that the student government team doesn't have to review the results and understand them. The CPA firm gets audited every 3 years in

order to make sure they're a trusted business and they adhere to their professional standards. Take faith in the quality of their firm and what they have to present to the BOD.
