campus, it is a national organization that can really help students understand about what Cal Poly Pomona is all about.

#### **IV. DISCUSSION ITEMS (75 minutes)**

##### **A. Senator Pro-Tempore Appointment (10 minutes)**

**VP: As of now, we have three nominations: CEIS, MCC, and AG. Are there any other nominations or questions?**

ENG: OF each of the nominees, who do you think has the best skillset and what is that skill set?

CEIS: I understand that I may not know everything but will try my best and have versatile experience with research.

AG: Roberts rules of two years

MCC: Chairing the unity cup committee gave accountability, communication, etc.

SCI: What would you like to do with remaining time as SPT?

CEIS: how to outreach to different communities and bring others to join.

AG: Getting feedback and engagement from people and councils

MCC: Communication and collaboration within the senate, and to touch one on one with the senators.

ENV: What do you experience as Senator do you think will help you be the best SPT you can be?

CEIS: Open to all discussions and am an active listener. I also have experience with the city, that can open up opportunities and experiences.

AG: I am a trainer at my job that gives experience with mentorship and two years as AG senator, so I collaborate with a lot of other entities on campus. I have a lot of experience with e-boards and clubs.

MCC: I have always started from club, council, and now senator level. Community support and personal and professional development is something I have and want to share.

ATTGEN: SPT meets with Executive team outside of normal hours, so what do you think you can bring to this team?

CEIS: I work with supervisors outside of schools. I would like to bring advocacy as well as engagement.

AG: A new voice would be good and speaking for all of you in the exec team.

MCC: I plan to bring student voices to the exec team and bring a good foundation for next year. Highlighting voices of senators to the exec team and bringing transparency.

PRES: On top of all the additional time commitments, are all of you willing to commit to one to two hours in the office.

CEIS: Yes, I delegate my time pretty well.

AG: Yes, I might get there a little early, but yes

MCC: Yes, I will make sure to come in a lot and go to the Social Fun Time

VP: Outside of the bylaws, I have my own expectations, more office time, responsive to messages, as my co-chair going over information. Where do you believe you can fulfill these expectations and where do you think you may fall short?

CEIS: I would rise up to being your co-chair and with messages, I may fall short but

AG: I think communication is part of my daily routine and something I may fall short, is other meetings.

MCC: I think my biggest strength is honesty, transparency and communication. It's like second nature. Adjusting the schedule may fall short, but I can adjust fast.

VP: Feel free to address the board about all of your concerns and thoughts.

ATTGEN: Chairing meetings does take a little practice, so if they don't have RR experience, then they should be able to trouble shoot. There will be mistakes happening, so I think a big part of the job is commanding the room and carrying on and realizing mistakes.

ENV: Is this for general concerns.

VP: General concerns and opinions about your vote

Pres: I appreciate that we have three senators that want to rise to the occasion. I will be choosing based on experience and the time involved. I also like how many of you have voiced being more present and going to every meeting we can go to. Given that, I will base my decision based on who will be most present in the office and experience so we can get back to the original flow.

VP: I want to be transparent. Exec team works with the Senator Pro-temp every day. Therefore, I will be voting for MCC because he has communicated with all senators for unity cup and I am proud of everyone, but I do think Sherwin will be able to meet all of these expectations and has time to be in the office consistently.

AG: I think the same thing, time commitment is important, so I understand VP's stance, but it is a position that I've always wanted so I'm going for it.

CCHM: I will be giving my vote to MCC because knowing that he is constantly in the office and worked with him often during unity cup. Thank you to the two other senators and I hope that we all still work hard.

CEIS: I understand that I have only been here for a short time, but I think that MCC would also be a good person to meet the expectations

ENG: MCC completed a big project and gone above and beyond, so I think he will be a good person for this position.

ENV: As long as whoever gets SPT doesn't just view it as a stepping stone and actually represents senators, I don't want it to just be for their resume but to take it seriously.

RSA: I would like transparency and I'm sure that the candidate that we pick will be as transparent as possible.

MCC: Thank you for all your recognition. I am trying to learn as much as I can and bridge that gap between exec team and senators.

SCI: I would like transparency from the next pr temp and communication.

SIC: I am for someone that has experience and someone who has used their position as senator to go above and beyond. I do want to put forward someone that can represent senators and is willing to get to know the other senators and form relationships with senators. I also want to echo concerns of ENV senator, that it is not just a way to get power, but also to

ATTGEN: I have something positive to say about every single one of the people here. AG is dedicated and goes through all the way. CEIS is connected to the city and passionate about education. MCC has experience with council unity cup, and coordinating.

Treasurer: It is a position that is exposed to so much information and ultimately it is about communication and time commitment.

### **[Pres Presents presentation to introduce SAL for elections committee]**

Pres: This is the final elections committee student at large appointment, so our final student at large I will be making.

Eric: I have two different TA positions at CPP. I have had office hours, picked up material, teaching, and this position would give a lot of experience learning about ASI.

SIC: Why are you interested in the position?

Eric: I want to be involved with the campus as a whole and this would be a great opportunity to get involved.

ENV: How has your time in ASI influence your opinion of ASI?
