ENG: presentation was very detailed, easy to read and understand, benefits are clear, good opportunity for students involved PRES: Agrees, lot of improvements were made to this presentation, would be great forstudent engagement and improvement BUS: agrees this has been going on for a long time so it shows it helps a lot of people VP: we've all voted PRO-T: total is at acceptable level. Number is not the same on the form. Will be fixing from 9,744\$ to 6,000\$. Cap is 6000\$. 25\$ yearly membership. Planning to fly on the 12<sup>th</sup>. MIA-Management in Active Programs. For seniors to get to know people but a wide range of classes going. The first section on Page 6 covers registration. The invoice is for 19 students. 2 have already paid. 1,540\$ is the original budget line. The flights are an approximation. 6,025 is what is being requested. 9179 came from what we have in budget. The club would only be left with 500 dollars which isn't enough for the entire council for the rest of the semester.

VP: will you cover the cost of flights that aren't already paid for if what we are giving you isn't enough

A: The only ones we're covering flights for is e board members experiencing financial hardships and one other student.

ATTY G: 5 nights for the hotels isn't reflected on the invoice

T: Is it possible the reservations are separated because of availability?

A: Yes. We pushed it back to the 16<sup>th</sup>

PRO-T: looks like it's going to be 5 nights at the Sheraton then 4 nights for adjusted cost. Numerical amount still stands, correct?

A: yes, we are just requesting 6000

ATTY G: if 19 students are going how are 15 going

A; 19 on the invoice the 15 is what we're trying to cover comfortably.

ATTY G: how many are going

A; 21. 19 we are trying to cover 2 we are sending an invoice in.

T: the funds will be for lodging and registration?

A: yes

\*Senator Pro-Temp resumes as Chair\*

ATTY G: the numbers aren't adding up to me, had to ask questions I wish were already provided. Otherwise seems aright

CLASS: same concern, presentation was detailed but the numbers didn't match as it continued ENG: on the presentation and excel sheet it reads as 6025 but on budget request is says 6000

PRO-T: they are only being allotted 6000. They have funds in their student account to facilitate the extra 25 dollars they need.

ATTY G: Why are they staying longer than when the conference starts?

VP: agrees, not confident the information is accurate and that numbers align. I'm not confident in moving this forward. Can we go back through the scoring rubric to tell them improvements PRO-T: main concern is the invoice that's not matching their request. If they can provide clarity that could help us understand better.

Advisor: this is their second presentation. Would the committee consider after we've asked our questions if they could submit a revised budget.

PRO-T: the numbers they received on the score is a passing score and we do not want them to come back a third time so as long as they explain more in depth, we could make a better decision PRES: master document reports they have a passing score so that their board can recommend it to the BOD.
